

Georgia Network to End Sexual Assault

Basic SANE/SAFE, Clinical Log for Pelvic Exams

Each Pelvic Exam Should include:

1. Detailed Genital Inspection
2. Speculum Examination
3. Visualization (Techniques & Equipment)

As Preceptor, I certify that this SANE/SAFE has completed a pelvic exam. In my professional opinion, this student is able to perform a pelvic exam safely and independently without causing injury to the patient. I also certify that this student has met her/his objectives by his/her ability to demonstrate proper speculum insertion and to recognize normal and abnormal gynecologic findings.
